

# Mipa Colour Matching

## X-Rite MA 5C

- Multi-angle colour measuring device with five measuring angles and integrated camera in a compact design
- Measures both colour and texture data in a single step (coarseness of the effect pigments, dirt and paint defects)
- Intuitive, multilingual touchscreen user interface
- Low-maintenance LED lighting technology
- Calibration only necessary every 28 days
- Stores up to 100 measurements
- Perfect integration into the painting process with MipaMix Elite
- Including docking station
- Four-year warranty
